

BEEF RANGE

EasyBeef®

EasyBeef® is a nutritionally balanced, safe, high performance 9mm pellet designed for feedlot cattle providing optimal weight gain and feed conversion. It is ideal for finishing cattle, assisting heifers to meet mating weights, supplementing lactating cows, and bulls.

Features

Benefits

Nutritionally balanced ration	> Meets the protein, energy and mineral requirements for optimum growth and feed conversion
High energy	> Rapid weight gain and efficient feed conversion
Contains Rumensin® (monensin sodium)	> Improves feed conversion efficiency, controls coccidiosis and aids in the prevention of bloat > Growth stimulant
Quality assured vitamin/trace mineral premix	> Provides the essential vitamins and minerals to meet nutritional needs
Faster adaptation period	> Cattle can be fed ad lib from Day 1
Pelleted feed	> Reduces dust and wastage
No ingredient separation	> Even nutrient blend received by each animal
Raw material receival standards	> High quality and safety of ingredients for quality assurance
Least cost formulation	> Better value for your feed dollar - c/kg Lwt gain

Rumensin® is a registered trademark of Elanco Animal Health (A division of Eli Lilly and Co USA)

NUTRITIONAL ANALYSIS

Nutrients	Dry matter basis
Crude Protein (min)	14.5%
Metabolisable Energy (est)	11.0 MJ/kg
Crude Fibre (max)	20.0%
Urea (max)	1.5%
Monensin	48.0ppm

INGREDIENT SELECTION

Lupins, barley, oats, wheat, triticale, cereal byproducts, cereal straw, limesand, urea, dicalcium phosphate, vitamin/trace mineral premix, monensin sodium.

FEEDING DIRECTIONS

EasyBeef® can be fed *ad lib* in self-feeders or in troughs from Day 1. Although EasyBeef® is a safe ration, it is recommended that cattle have unrestricted access to hay during the initial 7-10 days of feeding. Once the cattle have reached the expected daily intake of cubes, hay can be restricted or removed.

Ensure that clean, fresh water is available at all times.

The expected feed intake for finishing cattle is 2.5% - 3.0% of liveweight. Supplementary feeding for heifers, cows and bulls will vary from 1kg-5kg depending on other available feed.
