

DAIRY RANGE

# Maximize PLUS<sup>®</sup> Pellets

Maximize PLUS<sup>®</sup> is a high energy, high protein feed, designed to increase the energy intake of cows grazing medium quality pastures and forage without the risk of acidosis.

## Features

## Benefits

<b>Nutritionally balanced ration</b>	> Meets the demands of high producing cows
<b>High energy</b>	> Increased milk and protein production
<b>Can be fed safely to dairy cattle</b>	> Needs no introduction period
<b>Provides a stable rumen environment</b>	> Allows the rumen bugs to work efficiently to extract more energy from grass and concentrates
<b>High protein ration</b>	> To balance medium quality pastures and hay and silage diets
<b>Bypass protein added</b>	> Together with stable rumen, allows more efficient use of soluble N by rumen bugs - less N excretion and higher milk production
<b>Vitamin/Trace mineral premix</b>	> Provides essential vitamins and minerals for high producing cows.
<b>Contains Bovatec<sup>®</sup>150 (lasalocid sodium)</b>	> Improves feed conversion efficiency and aids in the prevention of coccidiosis
<b>Complete supplement</b>	> Additional feed additives normally fed to prevent acidosis are not required.
<b>Pelleted Feed</b>	> Reduces dust and prevents wastage
<b>No ingredient separation</b>	> Even nutrient blend received by each cow
<b>Least cost formulation</b>	> Better value for your feed dollar
<b>Raw material receival standards</b>	> High quality and safety of ingredients for quality assurance

## NUTRITIONAL ANALYSIS

Nutrients	Dry matter basis
Crude Protein (min)	21.0%
Metabolisable Energy (min)	13.0 MJ/kg
NDF	22.0%
Calcium (min)	1.15%
Available Phosphorus (min)	0.40%
Lasalocid	60mg/kg

## INGREDIENTS

Wheat, barley, oats, lupins, canola meal, limesand, dicalcium phosphate, salt, vitamin/trace mineral premix, lasalocid sodium.

## FEEDING DIRECTIONS

Maximize PLUS<sup>®</sup> is designed to be fed to dairy cows in all stages of lactation, providing a safe, high energy and protein source to cows grazing medium quality pasture, or being fed hay or silage based diets.

Maximize PLUS<sup>®</sup> can be fed in a bail or as part of a total mixed ration(TMR). The quantity fed should be adjusted according to the cow's production and body condition and the availability of quality pasture.

**Maximize<sup>™</sup>+**  
Maximum milk yield, minimum fuss.
