

Pegasus Coolmax® is a cool energy, oat-free, complete feed designed to meet the nutritional requirements of pleasure, show and sport horses and ponies.

NUTRITIONAL ANALYSIS

Nutrients	As fed basis
Digestible Energy (min)	11.5 MJ/kg
Crude Protein (min)	13.0%
Lysine	0.6%
Crude Fibre (max)	12.0%
Added Salt (max)	1.0%
Crude Fat (min)	5.0%
Calcium (min)	1.0%
Phosphorus (min)	0.6%
Magnesium	0.5%
Zinc	180 mg/kg
Iron	300 mg/kg
Manganese	220 mg/kg
Copper	60 mg/kg
Selenium	1 mg/kg
Iodine	1 mg/kg
Cobalt	0.1 mg/kg
Vitamin A	13400 IU/kg
Vitamin D3	1400 IU/kg
Vitamin E	275 IU/kg
Vitamin K3	7.3 mg/kg
Vitamin B1	10 mg/kg
Vitamin B2	6 mg/kg
Vitamin B3	70 mg/kg
Vitamin B5	18 mg/kg
Vitamin B6	5 mg/kg
Vitamin B9	2 mg/kg
Vitamin B12	49 µg/kg
Biotin	0.3 mg/kg

INGREDIENTS

Barley, cereal byproducts, lupins, lucerne, molasses, vegetable oil, canola meal, limestone, dolomite, sodium bentonite, salt, live yeast culture, organic chromium, mould inhibitor, KER vitamin/trace mineral premix.

Features and Benefits

- Supplies cool energy to maintain body condition without the heating effects of oats
- Contains added fat for cool energy and to promote a healthy coat shine
- Provides all the essential nutrients, vitamins and minerals for optimal health and fitness of horses and ponies
- Suitable for idle and spelling horses, as well as those doing light to moderate work
- Contains live yeast culture to enhance digestion and mineral absorption
- Contains organic chromium to improve glucose metabolism, decrease lactic acid accumulation and reduce the severity of tying up
- Contains high levels of magnesium to calm nervous horses
- Contains extra calcium for high oxalate pastures eg kikuyu
- Premium blend of quality grains and ingredients used to maximise finished feed quality and palatability
- Pelleting improves energy utilisation from grains and reduces waste of powdered minerals and vitamins

FEEDING DIRECTIONS

Coolmax® should be fed in conjunction with a minimum of 1% body weight of good quality roughage in the form of pasture, hay or chaff

Coolmax® should be introduced slowly to the diet over 7 days

The amount fed should be divided into at least two feeds daily, with a maximum of 3kg of Coolmax® per feed

Clean, fresh water should be available at all times

Feeding recommendations (kg/day)

Bodyweight	300kg	400kg	500kg	600kg
Maintenance	1-2	1.5-2.5	2-3	2-4
Light work	1-2	1.5-3	2-4	3-5
Moderate work	2-3	3-4	4-5	5-6

The above table is a guide only and the amount fed should be adjusted according to the horse's age, temperament, condition, bodyweight and workload.

Example diet for a 500kg, pleasure horse in light work
