#### Features and Benefits

Supplies cool energy to maintain body condition without the heating effects of oats

Contains added fat for cool energy and to promote a healthy coat shine

Provides all the essential nutrients, vitamins and minerals for optimal health and fitness of horses and ponies

Suitable for idle and spelling horses, as well as those doing light to moderate work

Contains live yeast culture to enhance digestion and mineral absorption

Contains organic chromium to improve glucose metabolism, decrease lactic acid accumulation and reduce the severity of tying up

Contains high levels of magnesium to calm nervous horses

Contains extra calcium for high oxalate pastures eg kikuyu

Premium blend of quality grains and ingredients used to maximise finished feed quality and palatability

Pelleting improves energy utilisation from grains and reduces waste of powdered minerals and vitamins

#### FEEDING DIRECTIONS

Coolmax™ should be fed in conjunction with a minimum of 1% body weight of good quality roughage in the form of pasture, hay or chaff

Coolmax™ should be introduced slowly to the diet over 7 days

The amount fed should be divided into at least two feeds daily, with a maximum of 3kg of Coolmax™ per feed

Clean, fresh water should be available at all times

#### Feeding recommendations (kg/day)

Bodyweight	300kg	400kg	500kg	600kg
Maintenance	1-2	1.5-2.5	2-3	3-4
Light work	1.5-2.5	2-3	3-4	4-5
Moderate work	2-3	2.5-3.5	4-5	5-6

The above table is a guide only and the amount fed should be adjusted according to the horse's age, temperament, condition, bodyweight and workload.
