

POULTRY RANGE

# Elite Layer Crumble

Elite Layer Crumble is a nutritionally balanced crumble designed to be fed to high performance layers with high nutritional demands.

## Features

## Benefits

Nutritionally balanced ration	> Meets the protein, energy and mineral requirements for optimum egg production
High energy	> Allow birds to achieve and sustain peak performance to their genetic potential
High protein and optimal amino acid ratio	> Optimise egg number and egg size
High nutrient density and digestibility	> Optimise feed conversion and minimise feed cost per dozen eggs
Specifically targeted calcium and phosphorus levels	> Meet shell quality and hardness requirements
Premium yolk colouring agents	> Meets yolk colour specifications
Quality assured vitamin/trace mineral premix	> Provides vitamins and minerals to meet nutritional needs of laying birds
Crumbled feed	> Prevents selective feeding, reduces dust and wastage and reduces the risk of bacterial contamination
No ingredient separation	> Even nutrient blend received by each bird
Raw material receival standards	> High quality and safety of ingredients for quality assurance
Least cost formulation	> Better value for your feed dollar

## NUTRITIONAL ANALYSIS

Nutrients	As fed basis
Crude Protein (min)	17.0%
Metabolisable Energy (min)	2750 kcal/kg
Added Salt (max)	0.20%
Calcium (min)	3.80%
Available Phosphorus (min)	0.45%

## INGREDIENT SELECTION

Wheat, peas, lupins, dehulled lupins, canolameal, soybean meal, meatmeal, tallow, limesand, salt, sodium bicarbonate, methionine, lysine, enzyme, carotene, vitamin/trace mineral premix.

## FEEDING DIRECTIONS

Feed Elite Layer Crumble *ad lib* from about 17 weeks of age through to the end of the laying period.

Birds could be expected to eat about 110 g/day depending on weight and environmental conditions, especially heat.
