

POULTRY RANGE

# Pullet Crumble

**Pullet Crumble is a nutritionally balanced crumble designed to be fed to pullets from 6 weeks to 17 weeks of age to meet the requirements for growth.**

Features	Benefits
Nutritionally balanced ration	> Meets the protein, energy and mineral requirements for growth
Coccidiostat added	> Aids in the prevention of coccidiosis
Quality assured vitamin/trace mineral premix	> Provides vitamins and minerals to meet nutritional needs of growing birds
Crumbled feed	> Prevents selective feeding, reduces dust and wastage and reduces the risk of bacterial contamination
No ingredient separation	> Even nutrient blend received by each bird
Raw material receival standards	> High quality and safety of ingredients for quality assurance
Least cost formulation	> Better value for your feed dollar

**NUTRITIONAL ANALYSIS**

Nutrients	As fed basis
Crude Protein (min)	15.0%
Metabolisable Energy (min)	2450 kcal/kg
Added Salt (max)	0.20%
Calcium (min)	0.90%
Available Phosphorus (min)	0.36%
