

POULTRY RANGE

Vege Layer Crumble

Vege Layer Crumble is a nutritionally balanced crumble designed to be fed to layers where vegetarian eggs are desired. This feed contains no material of animal origin.

Features	Benefits
Nutritionally balanced ration	> Meets the protein, energy and mineral requirements for optimum egg production
Contains no material of animal origin	> Suitable for the vegetarian egg market
High energy and amino acid quality	> Allow birds to achieve and sustain peak performance to their genetic potential
High protein and optimal amino acid ratio	> Optimises egg number and egg size
High nutrient density and digestibility	> Optimises feed conversion and minimises feed costs per dozen eggs
Specifically targeted calcium and phosphorus levels	> Meets shell quality and hardness requirements
Quality assured vitamin/trace mineral premix	> Provides vitamins and minerals to meet nutritional needs of laying birds
Crumbled feed	> Prevents selective feeding, reduces dust and wastage and reduces the risk of bacterial contamination
No ingredient separation	> Even nutrient blend received by each bird
Raw material receival standards	> High quality and safety of ingredients for quality assurance

NUTRITIONAL ANALYSIS

Nutrients	As fed basis
Crude Protein (min)	17.0%
Metabolisable Energy (min)	2680 kcal/kg
Added Salt (max)	0.25%
Calcium (min)	3.70%
Available Phosphorus (min)	0.40%

INGREDIENT SELECTION

Wheat, groats, dehulled lupins, peas, soybean meal, canolameal, limesand, dicalcium phosphate, sodium bicarbonate, salt, methionine, enzyme, carotene, vitamin/trace mineral premix.

FEEDING DIRECTIONS

Feed Vege Layer Crumble *ad lib* from 17 weeks of age (start of lay) through the end of lay.

Birds could be expected to eat about 120 g/day depending on weight and environmental conditions, especially heat.
