

**Everything your
lambs need in
one easy feed.**

New
EasyOne
Maximum weight gain, minimum fuss.

Turn over
for details.

EasyOne is a new no fuss performance feed from Milne Feeds that is completely safe and provides the benefits of grain diets.

EasyOne requires no adaptation – lambs are on full feed from Day 1 and therefore can reach a heavier weight earlier.

No additional roughage is required, adding value by saving time, labour and investment in capital equipment.

The technology used to produce EasyOne makes the stored nutrients more readily available for lamb growth and modifies rumen acidity ensuring lambs grow faster without the stress from eating traditional full grain rations.

Why EasyOne is so easy

- No adaptation period.
- No acid build-up in the rumen due to high fibre and buffers in the feed.
- No additional roughage required.
- Excellent growth rates.
- Full complement of vitamins, minerals and coccidiostat added for extra protection.
- 9mm pellet can be fed out in self-feeders, troughs or trail.
- Excellent carcass characteristics with no difference in dressing percentage, ultimate ph and fat depth compared with traditional grain diets.

Effect of diet on liveweight*

Up to 43% extra weight gain per day over traditional lamb finishers.
